

The DATA-VAC/3 ESD ^{LOWER \$}
Anti-static Computer/Electronic Cleaning System

The new DATA-VAC/3 ESD (electro-static discharge safe) with HEPA filter is 99.97% effective in trapping particles of dust down to 0.3 microns. It keeps all your high tech equipment running smoother, longer. Unlike regular vacuums which redistribute the same dust, dirt and allergens back into the air, our HEPA filter-equipped environmental control system traps dirt and allergens into a tightly sealed filter bag. Static is the #1 enemy of sensitive electronic equipment. DATA-VAC/3 ESD is equipped with a unique anti-static wrist-strap grounding the user from generating static. DATA-VAC/3 ESD has a virtually indestructible all-steel body featuring a 2-speed 1.7 peak horsepower motor. It comes with a complete set of static-fighting cleaning tools including a 3-6 foot expandable stretch hose, crevice tool, dust brush and 5 extra triple layer 0.3 micron disposable bags. In addition, a heavy-duty foam-filled carrying case and shoulder strap make DATA-VAC/3 ESD easier and more convenient to use. Wt. 21 lbs.

Cat. #	Description	Price
L53-066	DATA-VAC/3 ESD	\$495.00
L53-064	Pkg. of 5 Bags	9.25 pkg.

DATA-VAC
A Model to Satisfy Every Need
